

## Piramidi di Segonzano.

Durati : about two hours

**Point of Departure:** On the left of the bridge on the Regnana stream about one kilometre away from the Hotel Piramidi (in the direction of Trento). A rather steep path which offers a close view of the three groups of pyramids and on the wild valley of the Rio Regnana. It is recommended that this excursion can be taken in the morning. Trekking and strong footwear is recommended. It is possible to return from the high side of the village (near the church) and then return to the hotel. Various panoramic spots on the Regnana and Cembra valley. *Interesting places to visit: the precious wooden alter at the Church of the Holy Trinity.*
